

MEDIA RELEASE

COIN and Præmium integrate

Sydney, 23 April 2008

ASX-listed portfolio administration specialist, Præmium Limited, today announced the launch of an interface between Præmium's online portfolio administration service, V-Wrap, and COIN's financial planning suite.

The interface will enable financial planning firms to create a 'best of breed' business model whilst also streamlining administration by minimising rekeying of data between their portfolio administration and financial planning systems.

Mr Arthur Naoumidis, Præmium's Managing Director, said, 'By providing an interface with the industry's premier enterprise financial planning suite, we are giving financial planning firms the option to create a best of breed business model; which can be somewhat difficult in a market with little competition.'

Simon Bishop, Head of Sales at COIN, said 'We are pleased to partner with Præmium and offer clients another option in portfolio administration. The interface will allow advisers to add even greater automation to their business through Coin and Præmium's extensive number of platform, direct equities and accounting package data-feeds.'

About Præmium

Præmium supplies online portfolio administration services (V-Wrap), market data (p-Desktop) and Separately Managed Account (SMA) technology to wealth managers, financial planners, accountants, stockbrokers and SMSF administrators. V-Wrap currently administers in excess of \$28.5bn.
