The March quarter has shown a slight drop in portfolios numbers (-0.3%) reflecting an initial decline early in the quarter over the holiday period in what has been a very challenging market. However, this initial trend reversed in March, and growth in portfolio numbers is now trending back to historic levels.

This quarter has seen the first cash receipt associated with our recent contract with E*TRADE Australia, which represents a small proportion of what will be a significant minimum fee to be received over the coming two quarters.

Also:

- As at 31st March 2009, our SMA platform is in use by more than 183 services;
- As at 31st March 2009 there are 175 organisations are using p-Desktop
