Model Portfolio performance is based on the theoretical performance of the Model Portfolio, and does not take into account any fees applicable to the Model Portfolio. Actual portfolios may not perform in the same manner as the Model Portfolios, depending on customisations and timing issues. Accordingly, the actual after tax returns you receive are likely to be different from the Model Portfolio returns and those of other investors. Rounding used in the presentation of data may result in minor variations.

The following fees may apply to an investment in a Model Portfolio in the Praemium SMA:

- ▶ Model Portfolio Investment Fee
- ▶ Model Portfolio Performance Fee

These fees are in addition to the Administration Fee, certain transactional and operational costs; any applicable Establishment and Contribution Fees, and any Service fees payable to a financial adviser or dealer group. All fees and other costs for the Praemium SMA are set out in the relevant Product Disclosure Statement.

If you have any queries relating to any of this information or to obtain a copy of the Praemium SMA Product Disclosure Statement (PDS), please contact your Account Manager or our Client Services Team on 1800 571 881

Past performance is no indicator of future performance. Long term performance returns show the potential volatility of returns over time. The value of investments and the income from them can fall as well as rise and is not guaranteed. You may not get back the amount originally invested. Fluctuation may be particularly marked in the case of a higher volatility Model Portfolio and the value of an investment may fall suddenly and substantially.
