

## Software Architect

Established in Australia in 2001, **Praemium** has grown to be a market-leading provider of investment platforms, investment management, portfolio administration and CRM solutions with offices in Australia, the UK, Jersey, Dubai, Armenia and Hong Kong.

The world's leading financial advisers, investment managers, institutions, accountants and product providers use Praemium to manage or administer over \$110 billion worth of investment globally across more than 475,000 accounts.

We are seeking an experienced and driven **Software Architect** to join a global financial services firm in our Melbourne CBD office.

Part of an ambitious and fast-growing business with a strong team-based culture, and with an attractive and innovative product / service proposition, you will work with other .Net and Web Application Developers, to build and extend the sophisticated .net architecture of our world class platform, comprising mature but modern micro-services architecture components through to core applications comprising other .Net/JS based technologies.

### Experience, qualifications and attributes:

- Deep knowledge of software best practices and common web application architectures
- Excellent technical skills across .NET Core/Standard, ASP .NET core/ASP .NET Web API
- Database experience across MSSQL and RavenDB/Cosmos/MongoDB
- Experience with AngularJS 1/2
- Microservices, and API/SOA pattern experience
- Experience with Azure and globally-distributed systems and data patterns
- Strong interest in and ability to analyse things for scalability and reliability
- Experience with high-performance websites or applications will be an advantage
- Comfortable working in an Agile environment, adopting a consultative and cooperative approach to your work, GSD
- Able to mentor other technical team members in solutions architecture

- Have proven record of ability to negotiate resolutions to complex issues and tech leadership
- Excellent presentation skills, with exceptional verbal and written communication skills
- Financial services experience would be ideal

### **What's in it for you?**

- Work with a team of awesome people
- Melbourne CBD location, great team and office environment
- Leading Fintech investment management platform
- Global experience with great peers, technologies and markets

Please apply by emailing your CV and cover letter to [careers@praemium.com](mailto:careers@praemium.com).
