## Part 1 - Terms

Praemium Australia Limited ("we"/"us"), have entered into one or more arrangements with you, ("you"), pursuant to which we pay to you upfront fees, trail commissions or both.

These payments are made in relation to your provision of investor funds to us. The arrangements do not make provision for GST<sup>1</sup>.

There is a general obligation on suppliers to provide tax invoices to recipients when requested; however, the GST law also makes provision for recipients of supplies to issue tax invoices in certain specified situations ("Recipient Created Tax Invoice"). Pursuant to the terms and conditions set out below we agree to reimburse you for GST incurred by you in respect of supplies (if any) made by you to us and to issue Recipient Created Tax Invoices in relation to specified supplies made by you to us.

Subject to the following paragraphs, if you:

- Are liable to pay GST on a supply made by you to us under an arrangement to which this letter applies; and
- Certify that GST has not been taken into account when determining the consideration payable for the supply;

Then we agree to pay you an additional amount equal to the consideration payable for the part of the supply which is a taxable supply multiplied by the prevailing GST rate.

If the amount of GST recovered by you from us differs from the amount of GST payable by you in respect of the supply, the amount payable by us to you will be adjusted accordingly. You will not be entitled to recover from us any amount of GST which you have paid or are liable to pay in relation to or in connection with any supply made by you to a third party.

For the purpose of satisfying the requirements of the GST legislation and any additional requirements as determined by the Commissioner of Taxation from time to time, you agree that:

- We can issue Recipient Created Tax Invoices in respect of supplies by you to us under the arrangement;
- You must not issue any Tax Invoices in respect of those supplies;
